OF EMERGENCY SERVICES

# **SITUATION SUMMARY**

## **Cal OES Tribal and Southern Region Significant Activity**

- The Los Coyotes Tribe, San Diego County, experienced negative impacts to their reservation over the last few days due to the recent rains. The main issue is their main roadway, in and out of the reservation, has been eroded. Patchwork has been completed by the Tribe, however, this is temporary.
- Tribal Assistance Coordination Conference Calls began today with FEMA, Los Coyotes Tribe, Bureau of Indian Affairs, Cal OES Southern Region, Cal OES Tribal Office, and San Diego County OES. These coordination calls will continue over the next few days.
- The Tribe has requested an engineer to assess the road, which the Army Corps of Engineers will provide. School buses are unable to drive the road until an engineer says the road is stable to drive on at least one side.
- Cal OES Tribal Office and Southern Region will continue to monitor.

## **Kern County Tree Mortality Proclamation**

- A Proclamation from Kern County has been received proclaiming a local emergency due to tree mortality which will affect watersheds, increase risk of wildfire, diminish air quality, and result in increased wildlife mortality.
- Kern County requests a Governor's Proclamation and will be seeking assistance through CDAA and additional federal assistance.

## **Trinity County 2015/2016 Winter Storms, CDAA Request**

- Trinity County is requesting CDAA funding to assist in the repair of county roads damaged by the 2015/2016 winter storms.

## **Weather of Concern**

### **Northern California**

- Scattered showers are possible across the mountains and northern Sacramento Valley through Wednesday.
- A cold system will bring rain and snow to the Northern California interior Wednesday night into Thursday with possible thunderstorms.
- The system will bring a brief period of heavy rain and snow Wednesday evening to the North Coast.

### **Southern California**

- Portions of Southern California will experience near normal temperatures through Thursday then above normal temperatures by the weekend and into next week.
- Strengthening northwest to north winds will develop across a large portion of Southwest California Thursday and into Friday.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

# Weather

## WEATHER SYNOPSIS BY REGION:

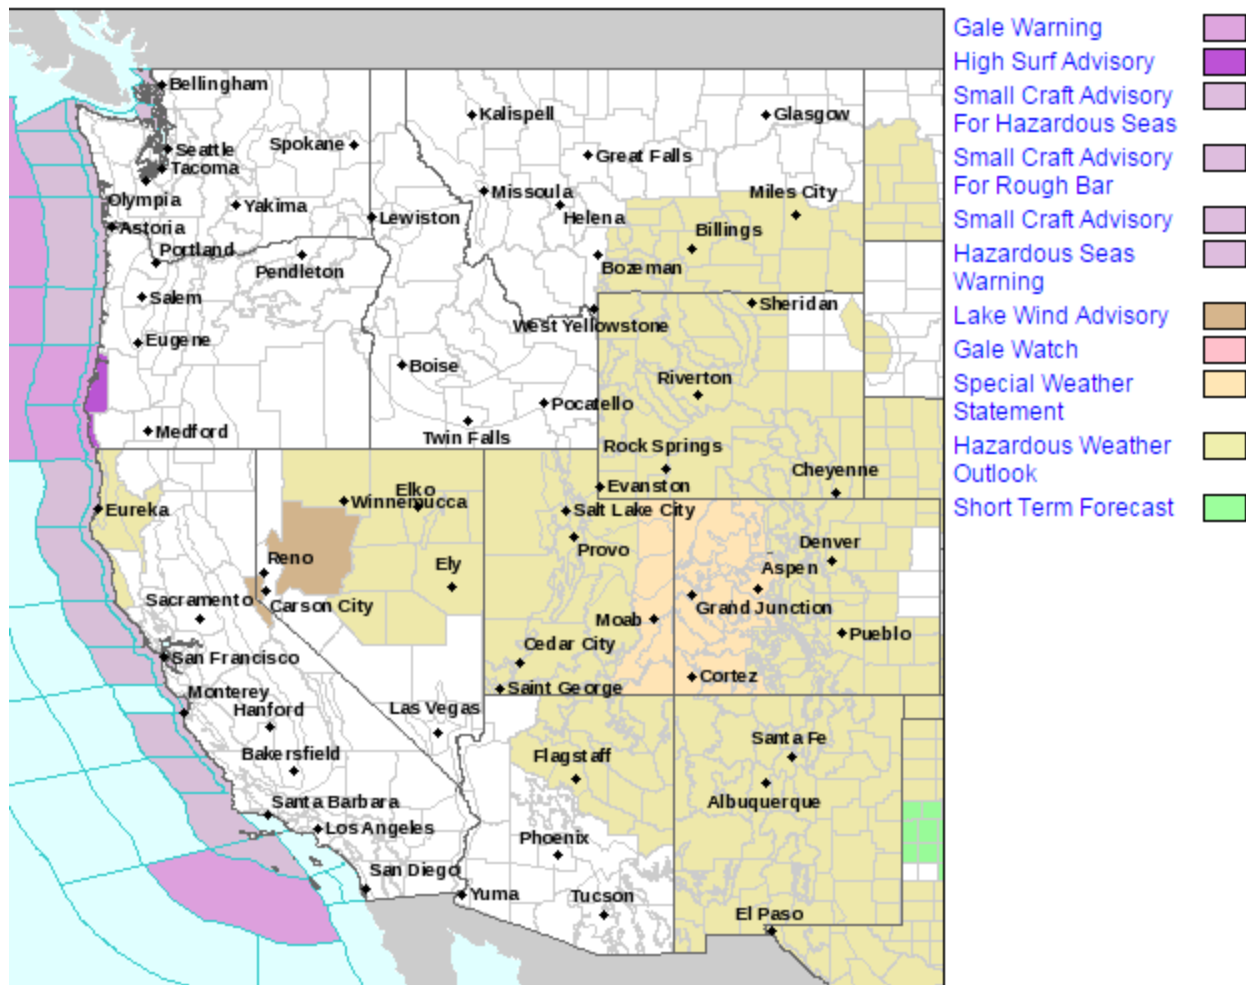

### **NORTHERN CALIFORNIA**

Unsettled weather will continue over Northern California into next week. There will be a series of relatively weak systems move through, the strongest of which is expected to move ashore Wednesday evening and move east Thursday. Most of the precipitation will be in the northern and eastern areas from that system. High pressure will start to take over Friday, and the weekend will see dry, warm weather as the high moves ashore and lingers. A weakening trough will arrive off shore Monday. Areas of rain or showers are expected through Thursday with dry conditions Friday through Sunday. Most of any showers or rain that might develop Monday will be in the northern mountains. Snow levels will drop to round 4500-5000 feet with the system Thursday. Some gusty South to southwest winds are expected to develop Wednesday night into Thursday. Moderately strong northerly winds will then develop Friday and continue into Saturday at a bit reduced speed. Saturday night and Sunday lighter easterly/off shore winds seem likely. Temperatures will be around seasonal normals this week except for Thursday when afternoon highs will be below normal. Over the weekend the warmest inland valleys will be in the mid and upper 80s or on the order of 15 degrees warmer than normal.

### **SOUTHERN CALIFORNIA**

A weak ridge of high pressure over the area will bring near normal temperatures through Wednesday, with mid 50s to mid 60s across the mountains and upper 60s and 70s in the valleys. An area of low pressure will drop into the Great Basin and Desert Southwest from the Pacific Northwest bringing a few degrees of cooling Thursday and Friday. Scattered showers with less than a tenth of an inch of rainfall will occur north of a Monterey/ Fresno County line Thursday. West winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes Wednesday afternoon through Thursday evening. These strong westerly winds will become northerly and affect the Owens Valley, south coast of Santa Barbara, and Grapevine Thursday night through Friday night. Minimum humidity will be above 30% across most of the region through Thursday and then drop to 15% to 30% Friday. Significant warming along with continued low humidity will take place across the area Saturday through early next week as a ridge of high pressure builds into California from the Pacific Ocean.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.
